## Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one series of treated cases, normal functions were restored in from 3 days to 5 weeks.

Try it out for yourself. Begin today by adding 2 or 3 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer.

### CONFERENCE OF BALTIIC STATES AND SOVIET RUSSIA

Riga, March 28.—(By The A. P.)—The conference of representatives of the Baltic states and Soviet Russia opened here this afternoon for preliminary discussions of questions of their mutual benefit and their joint attitude of the coming Genoa conference.

Incidentally, the delegates desire to conclude a few matters with reference to the inviolability of each other's frontiers and the Baltic states and are eager to ascertain the nature of the soviet government's proposition for the assumption of the Russian pre-war debts, of which France is reported to have taken the view that these debts should be assumed proportionately by Latvia and Estonia.

Poland is represented at the conference by Jodko Narkevich, and the soviet government is represented by Foreign Minister Chicherin, Min. Joffe, Litvinov and Turenko. Finland, American fashion, is not participating but has a unofficial observer in attendance.

Lithuania is not represented, owing to differences with Poland. The conference is expected to end by Thursday, when the soviet delegation to Genoa will leave for Berlin. They expect to spend a few days in the German capital before going to Italy by way of Switzerland.

### EXTRACTS FROM LENINE'S SPEECH TO COMMUNISTS

Moscow, March 28.—The Russian soviet official newspaper Pravda today published additional extracts from Premier Lenin's speech early this week before a secret meeting of the all-Russian communist congress.

"Our retreat has finished," the premier was quoted as saying. "We can now resume taking little steps in advance."

Alluding to the Genoa conference Premier Lenin declared: "We have picked our best diplomats to represent us at Genoa. We are going there not as communists but as merchants determined to obtain the best bargains possible. We are going to Genoa with thoroughly practical and hard sense objects, namely, the enlargement of Russia's commerce and the obtaining of the most favorable conditions for her development."

"The results of the diplomatic struggle at Genoa will depend partly upon the skill of our delegates," he said. He believed the Genoa gathering had been decidedly over-rated both in Russia and abroad. Those who heard his address scoffed at the soviet premier with the remark: "Mors solis has been made about Genoa than the conference really deserve."

### BUSINESS BY SHIPS FLYING AMERICAN FLAG

Washington, March 28.—Ships flying the American flag carried fifty per cent. of the foreign commerce of the United States during February, the shipping board announced today. American ships carried 62 per cent. of the imports and 34 per cent. of the exports. The total cargo tonnage moved in the month by American and other vessels was 4,864,400 tons.

In tank ship cargoes alone, the American ships moved 81 per cent. of the total or 82 per cent. of the import movement which constitutes four-fifths of this trade.

### \$11,000,000 DAMAGE SUIT AGAINST HENRY FORD

Miami, Fla., March 28.—Damages in the sum of \$11,000,000 are sought of Henry Ford by Edward S. Huff, Miami electrical engineer, in a suit instituted here today. Huff claims that he originated the mammoth now in use on motor cars manufactured by Ford and claims that Ford has not paid him in full for the invention.

Sweden's mortality in 1930 was the lowest ever recorded.

### LIBERTY BONDS AT BEST QUOTATIONS OF THE YEAR

New York, March 28.—Persistent accumulation of Liberty issues was the dominant feature of today's bond market, several of the 4's and all of the 4 1/2's mounting to the year's best quotations. Extreme gains of 6 to 40 cents per \$100 bond were shaded here and there in the speculative profit-taking of the later dealings, but final prices testified to the increasing inquiry for these issues.

High and low quotations for the year furnish an interesting commentary on the fluctuations of this premier security. The 2 1/2's at the maximum of \$8.40 compared with a low of \$6.70 and all the 4 1/2's, which seem to be most favored by small investors, show gains of 2 to 2 1/2 points, or \$2 to \$3.50 per \$100 from minimum quotations of the early weeks of the year.

Factors which have given the Liberty bond market its recent momentum are provided by easy money and the enormous amount of April interest and dividend payments seeking an easy and secure outlet.

Today's dealings were most extensive in the second, third and fourth 4 1/2's, those issues recently being attractive because of their large interest yields. The tax exempt 3 1/2's also were heavily traded in with Victory 4's, which are callable this year.

### FIRE LOSS OF SHRINE OF STE ANNE DE BEAUPRE \$1,200,000

Quebec, March 28.—The famous North American Shrine of Ste Anne De Beupre today was destroyed by flames from a property loss of \$1,200,000. Defective wiring ignited a pile of churches cast down by pilgrims, who after kneeling in the Basilica, had arisen announcing themselves miraculously cured. Soon the church and the monastery of the Redemptorist Fathers were aflame and for a time the whole village was threatened.

With the outbreak of the fire, an impressive scene was enacted. Discreetly the cracks of the church in the society, priests attached to the Basilica organized a procession and marched around the famous statue of "Ste Anne" on the oxen column, praying that the edifice might be saved.

Soon, however, the monastery caught fire, the cathedral was attacked and it became apparent that both were doomed.

Then priests turned to face fighters. While some combated the flames, others entered the blazing church to save priceless relics. Many were carried to safety. Among them were the miraculous statue of Ste Anne and a number of paintings by old masters.

### WAUREGAN

A grass fire which looked as though it might be serious occurred Saturday morning on the premises of Benjamin Livesey, Jr. Mr. Livesey thought he would burn the rakes of his garden, situated at the rear of his house, which he did. The wind came up blowing the sparks to and fro, the grass caught fire, and the blaze spread with great rapidity.

The garage was thought doomed at one time and it was badly burned. In it was an automobile owned by Arthur Kerouack. This was saved, however. The flames were not subdued but spread westward toward the house, reaching the back of the structure, and to a building south of the house and encircled this. The timely assistance given by a number of youngsters who happened along helped to save this building. Assistance was asked of the firemen, and as many as could responded. After hard fighting the fire was extinguished.

### ANNOUNCEMENTS

The Muscadette at the Strand Today.

A complete change of program begins today. There are five big B. F. Kett vaudeville acts scheduled that are bound to please all. Having these five features is the Muscadette. The Muscadette is of course, a petite musical. This particular musical is more than a musical because it includes singing and music. Their act is a real show. A very attractive and clever girl offers this musical which is described as a vaudeville cocktail with four pretty tricks. Their instrumentation is wide. Between these they play piano, saxophone, cornet, mandolin and violin. And all four sing, and all four dance. There may be a great deal to kick about in the world, but no one would kick at these four pretty kids.

Lynn and Lockwood will offer a rural skill full of comedy which they call Friendly Neighbors.

Mykoff and Vandy appear in a variety of dances, specializing in Russian whirlwind and ballet dancing.

Billie Shone is an excellent comedienne and will surely fill fourth place on the bill to good advantage.

Thurston and Heller offer a full stage comedy offering which is sure to please all.

The feature photograph will star Ruby de Rinner in The Unconquered Woman. The Unconquered Woman is a gripping drama of modern life. Starring in the frozen regions of the north, where elemental passions reign supreme, where men play poker for a woman's body and soul—wading in icy seas, restaurants, and studios of New York, where the artist husband indulges in wild orgies, ignoring the marriage tie, this magnificent picture holds the interest at fever heat.

Ruby de Rinner is a clever actress, never so superb. Fear, tenderness, fury, tragedy, love—all are depicted by her with an emotional intensity seldom seen on the screen.

The star's gown is magnificent, the sets beautifully artistic, the supporting cast excellent—an all-around finished production that will appeal to those who appreciate the best.

### DAVIS THEATRE

A superb arrangement of vaudeville program is booked for the Davis theatre beginning today, the headliner of which is a great comedy-drama sketch presented by Charles and Sadie McDonald & Co. under the name of The Chief of Police. It is really surprising how much intense drama and comedy can be crowded into a fifteen-minute sketch.

The Yosts Japs are a clever team of Orientals who perform many feats of sensational balancing and juggling. Whenever a Japanese act is announced you may rest assured that the offering is one of merit. The next act is Arthur Lyons and Co., who are retail and wholesale dispensers of smiles and laughter and can be depended upon to furnish their share of the amusement.

De Varr and Boys present a very fast singing and dancing act in their own special scenery. The Creighton Brothers offering is a rube musical act interspersed with lots of rural comedy.

Alice Brady, by many screen enthusiasts voted the best dressed star in motion pictures, has ample opportunity to wear smart raiment in Hush Money, the new picture in which she will be the screen attraction. She has the role of the daughter of the biggest man in Wall street, and needless to say, she neglects none of her sartorial opportunities. The picture, which has been lavishly produced, is a Samuel Merwin story.

An interesting news weekly will also be shown.

### BREED THEATRE

Shirley Mason, as usual, captured her audience at the opening performance yesterday, at the Breed theatre, of the photoplay, Ever Since Eve, a Fox production made from Joseph Ernest Best's story, Concerning Chelene. Ample evidence was forthcoming that the spectators were mightily pleased, not only with the dainty star's work, but with the company as a whole and the work of the author and the producer.

In Ever Since Eve, it is safe to say, Mrs. Mason is seen at her very best—which is very good indeed. Portraying the central character in a story of an orphan girl, adopted by an artist, she never has met, the development of the romance has in it not one dull moment; and the interest is enhanced by an element of mystery attaching to one of the prominent figures.

The story theme is cleverly worked out, and the final climax is in the nature of a surprise.

The serious action is threaded by good comedy, and the entertainment as a whole is of a high class.

Ever Since Eve will be the feature again today at the Breed and for the second feature Edna Murphy and Johnnie Walker will be seen in The Jolt.
